NATION PAYING TRIBUTE

Funeral of Mrs. Woodrow Wilson Held This Afternoon

MARKED BY SIMPLICITY

Arrangements for Services Were In Accordance With Wishes of Mrs. Wilson—Buried at Rome, Ga.—Special Car Required to Carry Floral Tributes.

(Associated Press Telegram)
Washington, Aug. 10.—Funeral services for Mrs. Woodrow Wilson were held in the east room of the White House at 2 o'clock this afternoon, after which her body was taken to a special train for Rome, Ga., for burial beside those of her father and mother.

Prayers were said and a simple brief funeral service was conducted in the presence of a small company to which the committees of congress and members of the cabinet were the only ones admitted beside the family. Mrs. Wilson's body lay in the room in which she died on the second floor of the executive mansion until an hour before the services and then it was taken down to the East room where flowers from many folk in all walks of life were banked almost to the high ceiling. A quiet crowd gathered outside the White House gates.

The Rev. J. H. Taylor at whose church the president has attended, opened the services with scriptural reading and then the Rev. Sylvester Beach of Princeton, N. J., began prayers. "There was no music," Dr. Beach said the following prayer:

"This day, O Lord, we bless Thee for all those who have died in the Lord and who now rest from their labor, having received the end of their faith, even the salvation of their souls."

"Especially we call to remembrance Thy loving kindness and tender mercies to this, Thy servant. For all Thy goodness which withheld not her portion in the joys of this earthly life and for Thy guiding hand along the way of helpfulness, we give Thee thanks and praise. Especially, we bless Thee for Thy grace that kindled in her heart the love of Thy dear name that enabled her to fight the good fight, and to obtain the victory. We magnify Thy name for this gift of this precious wife, for Thy image graciously reflected in her spirit and character, for her love so tender, her loyalty to unflinching, her devotion to duty, her Christian unselfishness, her service for others, her going from us in the fullness of her life, and we bless Thee that her going from us is but transition to higher and holier mysteries."

Theasket was placed in the hearse by the veteran White House policeman, the president and his daughters entered closed carriages and the procession to the railway station began.

All along the route silent crowds lined the streets, men uncovered their heads, many women wiped away tears as the cortege passed on.

All the government offices were closed, although shopkeepers did not suspend business. The body was placed aboard the funeral car and the president and his daughters returned to the White House to return to the station just before the departure of the train, a little more than an hour later.

(Associated Press Telegram)
Washington, Aug. 10.—The nation today is paying its final tribute to Mrs. Woodrow Wilson.

Arrangements for the funeral service in the East room of the White House at 2 o'clock this afternoon were marked by simplicity, such as Mrs. Wilson desired.

Only members of the Wilson family, and a very few intimates, members of the cabinet, were present.

THE CONSUMER AS USUAL PAYS THE FREIGHT

(Associated Press Telegram)
New York, Aug. 10.—The price of granulated sugar in the wholesale market was advanced to 5½ cents per pound today, making a gain of more than a cent a pound since the recent upward movement began. The advance was due primarily to the war in Europe which has removed Great Britain into the local market for supplies, while at the same time the position has been further strengthened by an improved domestic demand.

LINER IS CAPTURED BY ESSEX

Is News Said to Be Conveyed in Intercepted Wireless

TAKE PRIZE TO BERMUDA

Kronprinz Wilhelm, a German Vessel Attempting to Take Coal to Kaiser's Warships, is Believed to Have Fallen Victim to Vigilance of Britain.

(Associated Press Telegram)
New York, Aug. 10.—From two sources today came a report to New York that the north German Lloyd liner Kronprinz Wilhelm had been captured by the British cruiser Essex and taken to Bermuda as a prize. The liner Narragansett reported having heard wireless message to this effect, and the manager of the Royal mail steam packet, whose ships run to Bermuda, said he had heard a similar report.

The report was given some credence here in view of the announcement by the Canadian government made at Ottawa last night, that the Essex had advised the Bermuda station that she was bringing in a prize. The name of the captured vessel was not disclosed in the government's announcement.

Since the beginning of the war, the Essex has been cruising between Bermuda and Halifax. The message which the Narragansett is said to have intercepted, reads as follows: "Bringing in Kronprinz Wilhelm as a prize."

Customs inspectors who boarded the British tank steamer Narragansett, in today from Rotterdam, were informed by a sailor of the Narragansett's crew that the North German Lloyd liner Kronprinz Wilhelm had been captured by the British cruiser Essex and that the Essex was taking her to Hamilton, Bermuda. The sailor said a wireless message last Saturday from the Essex to the station in Bermuda intercepted by the Narragansett, told of the capture.

North German Lloyd officials doubted the story. No word, they said, had been received from the liner. The Kronprinz Wilhelm sailed from New York last Tuesday heavily laden with coal, ostensibly for Bremen. It was reported but not confirmed, that she intended to meet the German cruiser Dresden at sea and replenish her coal supply. The manager of the Royal mail steam packet, said he had every reason to believe the report was true. He would not say where he had heard it, but it was believed that the British consul was his authority.

Rigorous censorship is being enforced in Bermuda and no confirmation of the report could be obtained at Hamilton. A cryptic despatch from the correspondent of the Associated Press at Bermuda, indicated he had some news which he would like to communicate but could not on account of the censorship. It was in reply to a message informing him of the reported capture of the Kronprinz Wilhelm by the Essex.

The Minnetonka flies the British flag. When the pursuing warship, whose identity could not be made out, was sighted, the liner put on full speed. At nightfall with the craft still following, all the lights on the liner were extinguished. By daylight the warship was out of sight.

Not far off the coast of the United States, the Minnetonka was in communication with the British cruiser Essex which asked if any German cruisers had been sighted.

GOVERNMENT TO AID THE AMERICANS

(Associated Press Telegram)
Washington, Aug. 10.—The American government is now in communication with all of its European embassies and legations and every effort is being made to care for Americans in Europe.

Ambassador Gerard at Berlin was reached Sunday through Copenhagen. Official dispatches revealed that many Americans had been arrested or temporarily detained in Germany merely on suspicion, that at the first outbreak of hostilities during the mobilization period persons who talked English were thought to be acting suspiciously because they displayed cameras and were taking pictures of the troops or scenes incident to the outbreak of war.

Assurances that Americans soon would be able to leave Germany were given several days ago, and the opening of communication with Ambassador Gerard is expected to clear up all doubts on the subject. One of the first messages which came from Ambassador Gerard was a formal notification from the German foreign office that most German ports had been named and requesting that American ships be warned against navigating in any ports which might be a basis of hostilities for foreign forces.

Secretary Bryan has sent an inquiry about A. M. Huntington, president of the American Geographical Society and other Americans reported to have been arrested as spies. The Olympic with a large cargo of provisions sailed yesterday for Liverpool from New York.

Mr. Bryan declined to indicate the nature of any of the responses but it was understood that they were simply acknowledgments.

The state department is continuing its efforts for the release of Mr. and Mrs. Archer M. Huntington, of New York, under arrest in Neuremberg.

Ambassador Herriek, at Paris, has communicated with Ambassador Gerard in Berlin to use his good offices in their behalf.

Officials have not yet been advised of the outcome of the representations.

Switzerland is apparently satisfied that Germany will not violate her neutrality.

About 40,000 Austrians are near Basel on the Swiss frontier. German and French troops are near Valois. A frontier battle is expected soon.

France reports that the German's in Belgium are short of provisions, Russian Emperor has telegraphed his congratulations to King Albert of Belgium.

Official report from France gives no definite details of the strength of the French turning movement in Alsace near the Swiss frontier, where General Joffre is believed to be in command.

Austrian troops have been hurried there to the aid of the Germans and an important battle is believed to be imminent.

Indications are that another forward movement of the Main French force is in preparation near Metz, as official reports from Paris say the German troops have invaded the Sella valley between Metz and Nancy to hinder the French advance but the quantity of water is understood to be sufficient to prevent the French forward movement.

Aside from the flanking movement through Belgium by which the French assume the German army was trying to get to the rear of the great French fortress on the frontier, indications were today that a strong German advance is to be made on France by way of Luxembourg.

A German reconnoitering party penetrated 46 miles into French territory.

The London Daily Telegraph's Brussels correspondent says that Germany is mobilizing 1,000,000 of the Landsturm or final reserve.

Numerous skirmishes are recorded along the Franco-German frontier, none, however, very serious.

The French troops are reported to have seized a German aeroplane factory at Muelhausen.

INTEREST AS TO ATTITUDE OF AMERICA

(Associated Press Telegram)
Tokio, Aug. 10.—5:59 a. m.—The German fleet at Tsing Tau has already seized the Russian steamer Riazan, carrying British subjects, has driven 100 merchantmen to the refuge of Japanese ports, and has embargoed the entire Japanese shipping in the Orient.

The press gives prominence to an alleged communication from America saying the United States is sending a fleet to Asia to protect its interests. The report is considered baseless, but it has nevertheless reawakened interest as to America's attitude.

Forty missionaries, chiefly French, but some of them Germans, are leaving for their home countries to take their places in their armies.

FRENCH

(Continued from Page 1.) intact, as it still is the guns command three of the principal roads by which the German army can advance. This, it is pointed out, makes it impossible for the Germans under the present circumstances to receive supplies or ammunition.

Every line of railroad between Liege and the German frontier is alleged to have been destroyed and the Belgian troops are said to have blown up every bridge, culvert and tunnel.

The Belgian general staff declares it has received information that the Germans, expecting to take Liege in a few hours, brought with them only sufficient food for a few days and little ammunition, their plan being to rush Liege and make it their base of operations.

The same authority states that the German assertion of the capture of 4,000 Belgian prisoners is baseless and adds that not a single Belgian soldier remains in the town of Liege as they are all quartered in the forts.

As far as can be learned by the Belgian staff, some 12,000 troops were engaged at Liege. They are said to have been so weakened as to be unable effectively to attack the fort. On the other hand it is argued that it is not possible for the forts to concentrate their fire on the town of Liege itself.

The next development in the situation is expected to be the arrival of the Belgian main army reported to be advancing rapidly from Louvain in the northwest to attack the Germans occupying the town of Liege.

The Times correspondent in Brussels, describing the fighting at Liege says aerial fleets were used by both Belgians and Germans. Fighting in mid-air was desultory but deadly. A huge Zeppelin sailed over Liege during the early fighting but was pursued by a Belgian aeroplanist who risked and lost his life in destroying it. After the destruction of this Zeppelin the Germans confined their aerial activity to the use of scouting aeroplanes, several of which were destroyed by shots from the forts. Attempts to reach the aeroplanes were often unsuccessful however, to the inability to shoot high enough.

A despatch from Rome to the Daily Chronicle says the Austrian steamer Bayern, laden with dynamite and live projectiles is reported to be trying to penetrate the Adriatic sea. It is suspected that her mission is to replenish the munitions of the German cruisers Goven and Breslau.

But the Belgians will likely move their army on to the fortified town and there, perhaps with the aid of the French, make their last stand for their liberty.

MAILS

Germany by Refusing to Carry to Any Nation Has Shut off Ally

(ASSOCIATED PRESS TELEGRAM) Washington, Aug. 10.—Germany by a blanket refusal to carry mails in transit to other countries, has temporarily shut off postal facilities to its war ally Austria-Hungary. The postoffice department today arranged for despatch of all the mails for northern Europe, except Austria, by the steamship Rotterdam from New York early tomorrow. This will clear up all waiting European mail, except Austria, whose mails will have to go forward by some later and less expeditious route because the German government has served notice that it will not carry across its domain, at this time, the mails for any other country.

WAR CAUSES A BIG DEMAND FOR AMERICAN COAL

(ASSOCIATED PRESS TELEGRAM) New York, Aug. 10.—The European war has caused unprecedented conditions in the American export coal trade, according to the Black Diamond, the official organ of the coal interests. AEROPLANES TAKE PART IN BATTLE OF SAINT MARIE

(ASSOCIATED PRESS TELEGRAM) Paris, Aug. 10.—It is officially stated that patrols of the French army in Belgium have covered the entire region of Eltel, a hilly plain in Rhénus, Prussia on the left of the Rhine. They found traces of the Germans along the Ourthe river and east of Neukhateau.

At Liege the Germans appear to be recovering and provisioning. A large number of German squarons that had yielded ground to the French are now in the vicinity of Tongres. A number of German prisoners have been sent to Namur and Charleville.

The official communication states that the German troops are receiving reinforcements and that the French are also being strengthened. A battle began on Saturday evening on the ridges of the Vosges mountains. Aeroplanes took part. The French troops after a desperate encounter obtained possession of mountain passes of Ronhomme and Saint Marie. Then on Sunday when the fighting was resumed they took a position dominating Saint Marie, Aux Mines.

The French losses in the taking of St. Marie are not specifically given in the official report which confines itself to declaring that they were serious. The wounded French and German soldiers were taken to the French fortress of Euplat for treatment.

A French aeroplane which ascended during the engagement was repeatedly fired at, the officer who was acting as observer of the Germans' movements, receiving a bullet in the hip. The pilot of the machine however, brought him safely to the ground and he was able to return to Belfort whither the aeroplane also was sent for repairs.

The German troops inundated the valley of the Eltel, hoping by this means to stop the advance of the French, but the quantity of water was not sufficient and the French troops were able to continue their march. The French today were in the face of the outskirts of the fortress of Hards in front of Neu Breisch which appears to be occupied in force.

In the capture of Maulhausen the French seized a great aeroplane factory operated by a noted German manufacturer. It is announced that the list of German casualties has been increased by the death of several women who became despondent because they were under the necessity of leaving the country.

MOTORCYCLIST BADLY INJURED IN COLLISION

George L. Ellington, 310 Beech street, sustained painful cuts and bruises and narrowly escaped more serious injury when his motorcycle collided with a buggy near the intersection of East Main street and Monroe avenue.

The collision threw him for several feet and damaged the motorcycle. The name of the buggy owner was not learned.

The steamer left Liverpool July 29, and was well out at sea when informed that war had been declared between England and Germany. The Haverford's lights were extinguished and every ounce of steam was put on to speed the ship across the Atlantic. The ship's officers said there was no excitement among the passengers when they noticed the extra precautions taken against capture by German warships.

U. S. SEALS WIRELESS ON ALL VESSELS

(ASSOCIATED PRESS TELEGRAM) New York, Aug. 10.—United States customs officials went out in the revenue cutter Calumet today and sealed up the wireless apparatus of all vessels in the harbor flying the flags of the warring European powers. This action follows the censorship placed upon wireless stations along the coast to enforce the neutrality of the United States.

This new wireless embargo applies to such ships as the German liner Vaterland, which is at her pier. Customs authorities said that while no specific orders had been given physically to prevent foreign ships from using their apparatus, the inspectors had been given great freedom in enforcing neutrality regulations. It was reported yesterday that the big Vaterland was working her wireless.

Price Advancing ON GLASS USED FOR EYE LENSES

You want to be careful how you break the lenses in your eyeglasses from this time on.

Why? Because the price will advance 50 per cent this week, and probably double inside the month.

It will surprise a great many persons to learn that, despite the large amount of glass manufactured in this country, not a sliver of it is suitable for lenses. All of it comes from Europe, from the nations at war, and the best of it comes from Jenna, Germany, the most isolated of all the combatants.

In Columbus about 20,000 pounds of this sort of glass is consumed annually and at Saturday's quotations it was worth about \$30,000. But within a month it probably will cost twice that sum.

Dealers usually order six months in advance, so there is no likelihood of an immediate shortage, but because the supply is all imported, the wholesalers are protecting themselves.

Glass for use in lenses is specially prepared and cast in blocks. Only the cores or centers of these blocks are suitable, because of certain peculiar powers of refraction, and all the remainder must be used for other and less exacting requirements.

Dr. J. L. Robinson of Kansas City, Mo., is a guest at the home of Mrs. Henry Wulfoop in Clinton street.

TELLS OF BRUTAL KILLING OF FIVE YOUNG FRENCHMEN

(Associated Press Telegram.)

Paris, Aug. 10.—2:45 a. m.—How five young Frenchmen were shot and killed in Germany is graphically described in an affidavit of Jean Demonbyness, a returned student, who declares further that two Italians traveling in the same train met the same fate. The first Frenchman to be killed had shouted "long live France" at Lorrach, a town of Baden, where he was awaiting a train. According to the affidavit, he was immediately arrested, placed against the wall of the station and shot. Three other French youths, who were among the small crowd detained at Lorrach by the Germans, protested at the killing and were told to shut their mouths. They were then led to the place where the first Frenchman was shot, a group of officers fired at them and they fell. Women in the vicinity wept, the affidavit recites, knowing what had happened.

Another Frenchman who shouted "assassin" was likewise shot, the affidavit says, while the two Italians were killed on the road between Waldshut and Ammendingen. One of them was killed in an argument over the closing of a train window and the other because he objected to a German sitting with him.

DO IT NOW

Newark People Should Not Wait Until It Is Too Late.

The appalling death-rate from kidney disease is due largely to the fact that the little kidney troubles are usually neglected until they become serious. The slight symptoms often give place to chronic disorders and the sufferer may slip gradually into some serious form of kidney complaint.

If you suffer from backache, headaches, dizzy spells; if the kidney secretions are irregular of passage and unnatural in appearance, do not delay. Help the kidneys at once.

Doan's Kidney Pills are especially for kidney disorders—they act where others fail. Over one hundred thousand people have recommended them. Here's a case at home:

George K. Buckel, 31 Granville street, Newark, Ohio, says: "I had pains in my back and kidneys and the kidney secretions were irregular in passage. I used Doan's Kidney Pills, procured from A. F. Crayton & Co.'s Drug Store, and they gave me relief."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Buckel had. Foster-Milburn Co., Props., Buffalo, N. Y.

AQUATIC SPORTS AT GLASS PIER ATTRACT CROWD

Every event in the swimming contest which was held at the Glass Pavilion at Buckeye Lake Sunday afternoon was won by Ralph Shinton. Mr. Shinton holds several records in the Amateur Athletic Union and swam from Seller's Point to the Glass Pier a distance of practically three miles in 57 minutes. Five entered the race but Shinton was the only one to finish.

Shinton gave an exhibition in life saving and in strokes, and also won the one hundred yard dash. A canoe tilting contest concluded the program.

HERE'S GOOD CHANCE FOR A STATE JOB

Number of Non-Competitive Examinations to be Held by Civil Service Commission.

The August bulletin of the State Civil Service Commission has just been issued, and besides announcing a number of non-competitive examinations to be held during the next 30 days, calls attention to a number of special examinations.

Probably one of the most important of these is that which provides for a non-assembled examination of persons desiring to enter the service of the state highway commission. This examination is state-wide in its scope, and applicants only need to fill in the blank furnished free by the state civil service commission if they desire to compete for these positions. With more than \$2,000,000 worth of contracts for highway improvement just let by the state highway commissioner, it is certain that a number of helpers will be needed, and the best way in which to get these positions is through the state civil service examination.

It will not be necessary for the applicant to leave his home to appear in this examination, which consists merely of filling out a special examination paper which will be sent on application.

Other examinations to be held during the month are:

Florist, for all state institutions, to be held on Aug. 25, salary from \$50 to \$65 per month and maintenance.

Assistant physicians for all state institutions, to be held in Columbus, Aug. 22.

Teachers for state institutions under control of the state board of administration, to be held Sept. 15. Some teachers are required who are specially prepared to do work in the state school for the deaf and blind. Others are required to do simple grade work. The commission announces that it also has calls for domestic science teachers, gymnastics and industrial work. All applicants should have high school diplomas or equivalent, and a college education is desirable.

An examination for teachers in the institution for feeble minded will be held in Columbus on Aug. 21. Persons desiring to take any of these examinations should address the state civil service commission, Columbus, O., and secure the necessary blank. All applications must be filed with the commission at least three days before the day of the examination. An exception of this rule is made in the non-assembled competitive examination for employees in the state highway commissioners' department, which must be returned to the office of the state civil service commission by Sept. 1.

The War News.

A mistaken impression exists in the minds of some people that the Press of America is antagonistic to Germany. This sentiment was even voiced in one Newark pulpit on Sunday.

Almost as soon as hostilities started in Europe, the German cable was severed and since then all the news and reports that have been received respecting both land and sea operations have come through French and British sources or through sources in control of or in sympathy with them.

It should be remembered that a strict censorship has been placed upon all dispatches from Europe and that correspondents are not permitted to put on the cables all that they would like to send.

Germany's version of what has transpired has not as yet been received and therefore the story to date has not all been told. Under existing conditions of communication it will be long before the progress of German arms can be recounted to the outside world.

This statement applies to the movements of Austro-Hungary, small detachments of which according to the Associated Press are operating against Serbia and the remainder are doubtless being sent forward to check the Russian advance.

The outbreak of this the greatest war in the history of the world was the signal for the establishment of the most rigorous censorship of the news that has ever been known. While stringent regulations in the matter of informing the word of the daily events, each of which is bound to have a most important bearing on the final outcome, were anticipated, nothing like the existing rigor with which such information is kept from the world at large was expected.

The first move of the Austrian government at the outbreak of hostilities with Serbia was to take over the telephones, telegraphs and other means of communication, and every word that went over the lines had to be passed upon by the censor. Naturally nothing which might reveal the activities or the whereabouts of Austrian or Serbian forces was permitted to go through.

While much of the news is bottled up in Europe, the Associated Press

is rendering an admirable service under the circumstances.

The Associated Press news is reliable, but owing to the censorship and conditions named, it is incomplete, though by all odds the most complete of any of the press reports. The consistent authenticity of the war news printed in the Advocate is appreciated by people generally. While the reports necessarily carry unconfirmed reports, the source is named and the information is given for what it is worth. Wild and unconfirmed rumors are not branded as facts. No home made gossip is prepared in New York or elsewhere and sent over the wires under a foreign date line. The public may rely upon the Associated Press reports that appear exclusively in Licking county in the Newark Advocate.

The Press is not opposed to Germany any more than it is opposed to England, to France or to other powers engaged in this awful warfare. The press is endeavoring to publish the news of what is happening, but because of severed cables and strict censorship of dispatches, the complete story can not yet be told. News from the German viewpoint is yet to come, though some news from Germany was received last night and today via Copenhagen.

Vote Tomorrow.

Tomorrow is the day when Ohio voters will enjoy the privilege of their first state wide primary election. Tomorrow is the day when the people themselves will express their choice for United States senator, for governor, for state and county officers. The European war has served to take the people's minds away from politics, but they should give up discussion of the stirring events in Europe long enough to go to the polls tomorrow and express their choice among the candidates.

A light vote will indicate that the voters do not appreciate the opportunity that has been afforded while a big vote will mean an expression of the majority and this is a country where majorities rule.

The voter who through negligence stays away from the polls tomorrow belongs in the same class with the man who goes to the polls and votes for an unsuitable candidate. By all means vote tomorrow.

Newark's Health.

In another part of the paper the announcement is made that Newark is practically free from contagious diseases at the present time, and it is a result that has been wished for devoutly. It is profitable for us in view of the fact, to cast about and study conditions to ascertain the causes for this pleasing state of affairs.

Due credit, of course, must be given the unrelenting efforts of health officer Dr. W. H. Knauss, both in combatting the present danger of epidemic, when smallpox broke out some months ago, and in insisting upon sanitary police regulations. But the causes are more manifold, and deeper in their significance and future possibilities of application.

Newark People generally took up the spring campaign against the dangerous house fly and waged vigorous warfare against this breeder of contagion. Not only were thousands of these carriers of spores specifically killed, and their propagating fertility destroyed early, but the May "clean-up day" rid the community of rubbish, dirt and refuse upon which the fly and other vermin thrive, to carry disease germs and death within a far reaching circle.

There is no question about the fact that Newark is a cleaner city today, than ever before in its history, with the inevitable consequence that the inhabitants are healthier and happier than they have been heretofore.

Other agencies have been at work and probably have had their effect, but cleanliness in habits of the resident of a city, will conduce to the health of that city, and the minimizing of contagion which has its life and energy in filth.

Newark is to be congratulated, and its citizens are urged to continue and extend the good work of keeping the community health at the best.

Once more—remember Tuesday August 11, will be primary election day. It is the duty of every man to vote tomorrow.

By the Way

Before giving a man credit for refusing to sell himself, find out whether he had anything that anybody wanted.

We make some progress. There was a time when the old-fashioned velocipede was considered a menace to pedestrians.

Even if a man wins a joint debate, the prize is negligible.

Eph Wiley is franker than most. He says he never cares to hear the other side of the question.

We mobbed the umpire to-day, and chased him from the park; he called the game at close of day, because 'twas growing dark. Our boys had just begun to swat the ball, to take the bun, and then they had to leave the lot, defeated by one run.

Then we arose, as though one man, chased the umpire thence; ah, merrily the villain ran, and climbed a ten-foot fence.

O'er meadow land, through growing crop, we chased his frightened nibs and bottles, emptied of their pop, confined with his ribs. And bric-a-brac and lifeless cats, and chunks of brick and coal, we threw, to reach the victim's slats, and we had good control.

Oh, you may say it was a crime, to hound the umpire thus, but we enjoyed a splendid time, and following the fuss, we all were in a cheerful mood, forgotten were our woes; the heat in which we long had stewed, the sweat that soaked our clothes. We felt refreshed, and far behind our griefs were blown away, and we were in a frame of mind to face another day; if you a stranger are to smiles, if life seems sad and blue, just chase an umpire seven miles, and you'll be good as new.

The precocity of children is constantly a source of wonder to their elders, and at times the latter are nonplused by some manifestation of the processes of the child mind. It is a favorite method of the elders in a school to spell out names of objects or intended action of which they do not wish the little folks to have knowledge. Especially is this done in regard to some article of food, which it is not deemed advisable to allow infantile appetite to be satisfied.

One day last week Harriet's mamma intended to serve watermelon for dessert, and the little two-and-a-half year old daughter had seen it arrive during the meal, but after finishing an unusually light repast sat very properly awaiting her elder's pleasure. Her mother said to those at the table: "I am going to have wa-t-a-r-m-e-l-o-n to finish," spelling the word letter by letter.

Harriet heard this, to her jubilation of letters, and instantly realized that it meant something of which she was not supposed to be made cognizant, and quickly correlated this with the idea uppermost in her mind, as a desire. Clapping her hands she cried in high fever:

"A. B. C. dat means wa-wa-me-yon." She got a luscious piece of the heart—and it didn't make her sick either.

A fond mother recently took her only child—a boy of tender years and unusual beauty—down town to buy him a summer outfit, including a new hat. His advent assembled the customary group of admiring clerks, who were amused witnesses of the ensuing scene. On being politely invited to "take off his hat and coat, please," the little one brought from under his arm a small bottle of wine, the cork, containing a clear liquid, which he carefully deposited on the show case. "What in the world is in that bottle, sonny, and where did it come from?" asked the astounded mother. "Well," replied the youngster, facing the music heroically, "I'll just tell you! Every time you bring me to try on a hat, you wath my 'fath' with sphitt, and I'm tired of it!"

FIRE DESTROYS BARN AND ALL ITS CONTENTS

Fire of unknown origin destroyed the large barn of James E. Davis on his farm east of Pilectown, south of the city, at 5 o'clock Sunday morning. Twenty tons of hay had just been stored in the barn. Implements and farm utensils to the amount of \$500, the property of Ott Franks, who lived on the farm, were in the barn. All were lost.

Mr. Davis stated that the total loss aggregates \$2000, \$500 loss to Mr. Franks and \$1500 to himself as the owner of the barn and partial owner of the crops. Mr. Franks has no insurance on his loss. Mr. Davis has \$250 insurance on his barn.

The fire was discovered by Mrs. Franks, but it had gained so much headway that it was impossible to check the flames or to save anything stored in the barn. A corn crib full of corn which is situated near the barn caught fire several times, and only by strenuous efforts was it and its contents saved from complete destruction.

Besides the twenty tons of hay which was the joint property of Mr. Davis and Mr. Franks, Mr. Franks had stored in the barn some new farm machinery, a new wagon, two buggies and several sets of harness.

No cause can be ascribed for the fire, and Mr. Davis suspects that some transients might have slept in the barn during the night and have dropped a match into the hay.

Fortunately, all of the stock had been turned out to pasture the night before.

Longevity of Birds.

In ancient days it was the general belief that ravens lived longer than any species of birds, and it was said that their age frequently exceeded a century. Recent studies of the subject indicate that no authentic instance of a raven surpassing seventy years of age is on record. But parrots have been known to live one hundred years. There is also a record of a golden eagle which died at Schonbrunn at the age of 118; another was kept in the Tower of London for ninety years, while a third died at Vienna aged 104 years. Geese and swans are tenacious of life, and extraordinary accounts exist of the great age to which they have attained. Buffon and other naturalists have credited them with eighty and one hundred years of life.

Most Disheartening.

Stewart Edward White tells of his greatest disappointment. It happened when he was five years old. "I understood that those who maintained perfect deportment in school during the week would be given their choice of sweetmeats. I therefore have myself with extraordinary propriety. When the time came and I demanded my sweetmeats I found that it was my choice of a seatmate that had been offered. I never quite gave that teacher and shall always consider the week of good conduct one lost out of my life."—Exchange.

"Great! Last week he made within \$150 of my daughter's actual expenses."—Detroit Free Press.

"Why?" asked the man.

"Because you tried to guess her age."

"Oh, I didn't try to guess her age; I only tried to guess the age she'd like to be."—Yonkers Statesman.

One Taunt Barred.

"Does your wife ever tell you that she might have married a millionaire if she hadn't thrown herself away on you?"

"No; I escape that. My wife's folks were poor people. She never saw a millionaire until we had been married nine years."—Kansas City Journal.

Good Family.

"My daughter appears to have married very happily," remarked a lady.

"Her husband has not wealth, it must be admitted, but he has family."

"Yes I heard he was a widower with six children!" a neighbor sniffed acidly.

"What's the matter? Wife away?"

"No, but Bill Smith's wife is in."—Detroit Free Press.

WHY ACTRESSES NEVER GROW OLD.

(Theatrical World.)
Nothing concerning the profession seems more puzzling to the dear old public than the perpetual youth of our actresses. How often we hear remarks like, "Why, I saw her as Juliet forty years ago and she doesn't look a year older now!" Of course allowance is made for make-up, but when they see off the stage at close range, they need another explanation. How strange women generally have not learned the secret of keeping the face young! How simple a matter to give an ounce of moroline wax at the drug store, apply it like cold cream, and in the morning wash it off! We know how this gradually, imperceptibly, absorbs old cuticle, keeping the complexion new and fresh, free from fine lines, sallowness, or over-reddes. We know, too, that this moroline wax is the reason actresses don't wear moth patches, liver spots, pimples, and the like. Why don't our actors on the other side of the footlights learn the reason, and profit by it?

Flowers on Icebergs.

Flowers blooming on icebergs would certainly be a rare sight, but travelers in the northern portions of the Pacific and sometimes in the north Atlantic have witnessed this strange but very beautiful spectacle. It appears that some animals carry on their feet a growth of moss, which is deposited on the ice while it is attached to the main land in polar regions. In time this decays and forms a shallow soil, in which the seed of buttercups and dandelions find a lodging, borne by currents of wind that doubtless caught them up in some southern clime. These take root and bloom when the great gleaming icebergs float out to sea and is carried southward, where the soft winds melt the surface and give the plants the moisture they need.

CITY FREE OF

Newark is practically free from contagious diseases, was the cheerful information given out at the office of Dr. W. H. Knauss, Monday morning. There is one case of diphtheria, and a couple of sporadic cases of lighter and minor diseases, which for safety's sake have been isolated.

This is a fine record for any city the size of Newark, and especially when it is remembered that a threatened smallpox epidemic was averted by drastic measures by the city health department.

ENTERPRISE OF
GERMAN SCOUTS
VERY AMAZING

(Associated Press Telegram)
Dinard, France, Aug. 10.—(Via London)—The enterprise of German scouts is amazing. One prisoner of war had ridden over seventy kilometres, about forty-six miles, into French territory. Their method is to ride in small parties toward a rendezvous where they are joined by other parties with the object of seizing a point where the Meuse may be crossed. A rather large body of German Uhlans are in the woods round Dinard but they are already surrounded and their capture is certain. Several cavalry skirmishes between French and Germans east of Namur show that the Germans have begun to feel their way south.

NATION

(Continued from Page 1.)
bers of the cabinet and their wives, committees from the Senate and House and the employees of the White House were asked to be present. Those invited made a group of less than 200 persons.

The mahogany casket covered with gray broadcloth was taken from the room in which Mrs. Wilson died to the East room and there surrounded by a profusion of beautiful flowers sent from all parts of the country.

Lilies of the valley and roses filled the room with their sweet fragrance. With the President and his daughters, Miss Margaret Wilson, Mrs. McAdoo and Mrs. Sayre were Secretary McAdoo, Francis B. Sayre and Professor Stockton Axson, Mrs. Wilson's brother, who arrived here early today, after a race across the continent from Oregon to be present at the funeral.

Near the family place had been reserved for the members of the cabinet and their wives. The employees of the White House, all of whom Mrs. Wilson had befriended by simple acts of kindness and thoughtfulness, had a special part of the room assigned to them.

No music was arranged for the services, and Rev. Sylvester Beach of Princeton, N. J., the Wilson pastor for many years, and Rev. J. H. Taylor of Washington, whose church the president has attended since coming to Washington, decided on the simplest kind of services. They selected several verses from the fifteen chapter of First Corinthians, and the fourteenth chapter of St. John for the scriptural reading and short prayers and a benediction completed the services.

"Let not your heart be troubled; ye believe in God, believe also in me," was the opening verse from the scriptures. "In my Father's house are many mansions; if it were not so, I would have told you. I go to prepare a place for you. I will not leave you comfortless. I will come to you."

The members of the senate committee headed by Vice President Marshall gathered in the marble room of the capitol to drive to the White House together Speaker Clark and the other members of the house committee which included the senior member of each state delegation also met at the capitol to attend the funeral in a body.

There were no honorary pall bearers. A group of White House attendants who had been on duty there for many years were honored by being chosen to bear the casket.

Both houses of congress were in recess until tomorrow, and orders had been issued that all government departments be closed at 1 o'clock, today and tomorrow afternoon. All flags in the city on public buildings and private homes and stores were at half mast.

The trip to Rome, Ga., where Mrs. Wilson will be buried late Tuesday afternoon beside her mother and father in Myrtle Hill cemetery, will be made on a special train. Those in the party will include the President, Miss Wilson, Mr. and Mrs. Sayre, Secretary and Mrs. McAdoo, Prof. Axson, J. R. Wilson, George Howe, Dr. Carey T. Grayson, and Secretary Tumulty. James Woodrow, a cousin of the President, will join the train at Spartanburg, S. C., and Miss Allethea S. Axson and Miss Carrie Belle Axson at Atlanta, Ga.

The south has planned to pay tribute to Mrs. Wilson's life as the special train passes toward Rome. In Alexandria, Va., and many other cities and towns the church bells will be tolled.

A special car on the train will take the thousands of wreaths and floral tributes which have been sent to the White House since Mrs. Wilson died. It was arranged that the President and his three daughters would follow Mrs. Wilson's body to the special train and then return to the White House to await the time for departure, some two hours later. Joseph R. Wilson, the President's brother, and George Howe, the President's cousin, will remain meanwhile on the funeral car.

Since Mrs. Wilson's death the President or some other members of the family have been constantly in the room with her body. The President took personal charge today of the final arrangements for the funeral and steeled himself against his grief.

Six police officers, who have been on duty at the White House for many years were selected to bear the casket to the hearse. They were: Forest H. Parks, John F. Jamieson, H. F. Hinton, John Bramlett, Eugene F. Davis and Henry Gilbert.

Among the mourners at the White House was Major Charles Loflier, who for 44 years was doorkeeper for successive presidents. He was among the pallbearers at the funeral of Mrs. Benjamin Harrison, who died in the White House.

LACKING KNOWLEDGE
GOD'S PEOPLE PERISH

"My People Are Destroyed For Lack of Knowledge."

KEY OF KNOWLEDGE BURIED

Jesus' Teachings Harmonized the Law and the Prophets—Jewish Doctors of Divinity Had Failed to Teach the Deep Things of the Law—Opposition to Bible Study—Common People Heard Jesus Gladly—Jewish People Typical of Spiritual Israel—Jewish Age Typical of Gospel Age—Jewish Harvest Typical of Gospel Harvest.

(PASTOR RUSSELL)

August 9. — The Photo-Drama of Creation continues to awaken deep interest in Bible study. Its orderly presentation of the world's masterpieces of art illustrating sacred history deeply impresses the thoughtful spectator. Every subject dear to the Christian's heart is beautifully depicted.

Pastor Russell preached today from the text, "Woe unto you, lawyers! for ye have taken away the Key of Knowledge; ye entered not in yourselves, and them that were entering in ye hindered." (Luke 11:52.) He said in part:

In the New Testament the word lawyer has a very different meaning from our general usage. It applied to those religious teachers of the Jews who made special professions of sanctity and earnest desire to know God's will, as expressed in the Moslem Law, and to teach the same to the people. The corresponding class of today are designated Doctors of Divinity. Our text, therefore, with this correction reads, "Woe unto you, Doctors of Divinity! for ye have taken away the Key of Knowledge, ye entered not in yourselves, and them that were entering in ye hindered."

Common People Heard Jesus Gladly.

It was the custom amongst the Jews that lessons from the Law and the Prophets should be read every day in their synagogues. The people were thus familiar with the letter of the Divine Law and promises. The majority of them were, of course, illiterate; for education facilities were not then what they are now. As a result, only a few claimed to have a knowledge of the spiritual part of the Law and the Prophets. These were chiefly of the literary and wealthy classes. To these the common people looked for guidance respecting God's will and plan.

As an illustration: When the common people heard Jesus gladly, they were unwilling to trust their own judgments, but inquired, "Have any of the Scribes and Pharisees believed on Him?" Have the Doctors of the Law, the Doctors of Divinity, endorsed Him? They have made a study of these things, and we would rely more upon their judgment than upon our own. But not one of the Scribes and the Pharisees endorsed Him, and hence few of the people believed on Him and became His disciples.

The common people were hungry for the Message which Jesus brought. It is recorded that they said of Jesus' teachings, "Never man spake like this man." The nation would have gone over promptly to Jesus had the Scribes and the Pharisees, Doctors of the Law, set the example and given the word. Moreover, the teachings of Jesus harmonized the message of the Law and the Prophets, over which the Scribes and Pharisees and the Sadducees had long wrangled and disputed. Had the Doctors of the Law been as hungry for the Truth as were the people, undoubtedly all of their differences of interpretation of the Old Testament Scriptures would have been speedily removed in the light of the then Present Truth and knowledge of God, which was shining upon the Bible through the Holy Spirit, Jesus and the Apostles being Jehovah's mouthpieces.

The Key of Knowledge Buried.
In our text Jesus charged the Jewish Doctors of Divinity with the responsibility of having taken away the Key of Knowledge, refusing to use it themselves to enter into appreciation of the great blessings due, and hiding it from the common people, who trusted them implicitly. We charge that the same thing is true today.

Not only were the Jewish people typical of Spiritual Israel, and their Age typical of this Age, and their Harvest typical of the Harvest, or closing time, of this Age, but additionally, now as then, God's people perish for lack of knowledge. (Hosea 4:6.) Now, as then, the Doctors of Divinity will not use the Key of Knowledge themselves, to enter heartily into the wonderful privileges and blessings now due, and additionally they have buried the Key of Knowledge, hiding it from the people under a mass of forms and ceremonies.

But is Knowledge Necessary?

In our Lord's day the Jewish Doctors of Divinity, or Rabbis, contented themselves with telling the people what they should do and what they should not do, but did not teach the people—did not help them to any understanding of the deep meaning of the Law and the Prophets. In our context Jesus said to them, You bind heavy burdens upon the people, grievously to be borne, but you do not attempt to carry them yourselves.

So is it today with the Jewish Rabbis, as well as with other ministers; for instance, a minister stands as a representative and mouthpiece of the church creed, which in roundabout terms declares that whoever does not live a saintly life will suffer an eternity of torment. Is not this a grievous burden to put upon any conscientious soul? Has it not caused untellable anguish to many of God's true people? Has it not driven away from God and the Bible thousands of the most intelligent minds in the world?

As the Jewish Doctors of Divinity carried no such burdens, neither do the Doctors of Divinity of Christendom. In private they acknowledge that they carry no such burdens. In public they give the inference that they do not so much by positive terms as by implication, tone and inflection of the voice, and by the general fact that they stand for and are representatives of the creeds which so teach. It does not excuse these influential teachers for them to lose their personal responsibility and shift it upon those who made the creeds and those who adopt them. The people are no longer trusting the creeds. They realize that the creeds contain many inconsistencies, and that greater light is shining today from one page of the Bible upon another than shone in the days when those creeds were formulated.

The common people trust the Bible—Jesus, the Apostles and the Prophets. They know that all the creeds of Christendom claim to be built upon the inspired Record. They understand the Scribes and Pharisees of today, the Doctors of Divinity of Christendom, to give assurances that those creeds properly present the teachings of the Bible. The creeds claim would become ropes of sand if all the prominent Doctors of Divinity of Christendom came forward and publicly renounced the creeds, as they nearly all do in private conversation.

It was this matter of misleading the people, deceiving them, that constituted the basis of Jesus' charge against the Doctors of Divinity of old; and we believe that His judgment is very similar today respecting the Doctors of Divinity of Christendom—"Ye have taken away [ye have hidden] the Key of Knowledge. Ye have not entered in yourselves, and them that were entering in ye hindered."

Ye have not entered in yourselves, and them that were entering in ye hindered."

Christianity people today are so disgusted with the creeds which have separated them and their forefathers into six hundred different denominations that they are quite ready to discard all creeds, and to come together as one Church of the Living God to study the Bible in its own light.

Systematic Key-Hiding.
The Scribes and Pharisees of our day are proving themselves to be the antitypes of those addressed by Jesus in our text, and have a substitute for knowledge. Taking away the Key of Knowledge, they say to the common people, "Do not bother your head about doctrines; leave doctrines to the clergy; let the clergy endorse all the creeds, however conflicting they be. We do this in order to lull you to sleep. There is nothing so disturbing to the Christian's rest as the discussion of the doctrines of Christ."

"If there be in any congregation those who cannot feel satisfied without some kind of Bible study, let them have it; but get them rather to discuss the geography of Palestine and the habits and customs of the people, etc., than the prophecies of old or the interpretation of them, as given by Jesus and the Apostles. We ministers will keep aloof from such Bible study; we will leave the impression that we understand these prophecies perfectly, and we will keep a watch upon the Bible classes, but will interfere only when we find some brother therein who is inclined to delve after the doctrines of Christ and the Apostles."

One minister, voicing this opposition to Bible study, especially along the lines of difference where it would be of special value, said, "The Church is like a great hospital. Everything like doctrinal discussion must be banished and excluded, just as in a hospital all noise is forbidden, in order that the patient may sleep; or just as in a nursery all noise is excluded."

Alas! It is too true that the nominal Church of Christ is like a hospital, many of the patients in which are blind, deaf, asleep and mentally confused. But the trouble is that these got into this condition because of a neglect of healthful exercise; and the keeping of them quiet will but turn the present hospital into a cemetery.

What the churches of all the denominations need is the Word of God—as presented in the words of Jesus and the Apostles. "The words that I speak unto you, they are spirit and they are life," said the Master. The sick and lame, the blind, deaf and mentally perplexed need to hear the voice of Truth—"Wonderful Words of Life"—otherwise they will become more sick and will perish as Christians, only to become alive perhaps as "lovers of pleasure more than lovers of God."

An Episcopal minister in our hearing urged his congregation to simply rest, and not to bother themselves about their own future or that of others. The Holy Catholic Church, he said, resembled a ship, in which the members should come as passengers to be carried to the Heavenly destination. They need not examine the compass or the chart or the machinery. All that they need to do is to sit down and enjoy the journey, trusting that their hap-

Ham and the Holy Spirit have given them a ticket to a proper destination.

Necessity For Knowledge.
Knowledge of God, the Bible declares, is indispensable for the attainment of the great Prize of the High Calling. Thus Jesus said, "This is life eternal, that they might know Thee, the only true God, and Jesus Christ, whom Thou hast sent." (John 17:3.) We are not to understand this to signify that any one who has merely been made acquainted with the fact that there is one Creator, and that Jesus Christ is His Son, is on account of this knowledge to be granted everlasting life. Some apparently think to be able to make void the various Scriptures which tell of the necessity of making our "calling and election sure" by so running as to obtain the prize.

Our Lord's words do not refer to a knowledge about God, but to a knowledge of God and His Son—a personal acquaintance with them. And such an intimate acquaintance is not obtained merely by an introduction, but by companionship. It signifies an intimacy of acquaintance, a familiarity. Everything in the Divine Word encourages those who accept the Divine invitation to draw near to God, to come into fellowship with Him.

But this knowledge of God which will bring a saintly few to salvation on the highest plane stands related to God's Word—the teachings of the Bible; for thus God exalted His Word, by making it the channel for spiritual refreshment and personal acquaintance with Himself.

Thus Jesus prayed for us, His followers, "Sanctify them through Thy Truth; Thy Word is Truth." Any who neglect the Divine Word will fail of the sanctifying power and thus fail of the ultimate acquaintanceship with God which alone will guarantee everlasting life. The reason why the Lord has thus arranged the matter and made knowledge of the Scriptures essential is, doubtless, that thus His faithful people may be benefited; and they alone may receive the instruction which will profit them alone, but which would more or less injure others. Thus it is written, "Ye shall know the Truth, and the Truth shall make you free."

To this class our Lord says today, as He said to His Jewish followers eighteen centuries ago, To you it is given to know the Mysteries of the Kingdom of God; but to all outside these things are spoken in parables and dark sayings, that seeing they might see and not perceive, and hearing they might hear and not understand. To the outsiders—the Doctors of Divinity—is not committed the Key of Knowledge.

What Constitutes the Key.
The Key of Knowledge consists of the faithful study of the Word of God, with an honest purpose to know the things that are freely given unto us of God. This implies a consecration of heart; for none others would really desire that they might do the Divine will. This also implies a faith in our Lord's promise that "if any man will do God's will, he shall know of the doctrine." It is this consecrated, conscientious Bible study that is lacking today—that is being discouraged by the great teachers and Doctors of Divinity.

Everything designed to help Bible study, to get rid of the darkness of the creeds and superstitions of the past, is opposed—but not openly. The Doctors of Divinity of our day, like those of Jesus' day, are wise and act as though they do know. But they do not know; they oppose real Bible study—not openly, but secretly, "for fear of the people." (Mark 11:32; 12:12.) The great religious leaders of the Jews were marked by our Lord as being less conscientious, less honest, than the masses of the people. Concerning the people we read that "Jesus was moved with compassion when He beheld the multitude, that they were like sheep without a shepherd."

And is it not so today also? Are not many of the Lord's people hungering and thirsting for the Truth, and greatly perplexed and discouraged because, going time after time to the religious leaders, they have received a stone instead of bread, a serpent instead of a fish—have received a false doctrine, a devilish misrepresentation of God's Character and of His Plan respecting humanity? These devilish doctrines of the Dark Ages St. Paul calls "doctrines of demons"; for the demons, the fallen angels, evidently have propagated them. They are to be found amongst all the heathen, but nowhere in so bad a form as amongst Christians of all denominations. Is there not therefore a great responsibility resting upon every conscientious minister of the Gospel, that he should step out from amongst the mass of the Doctors of Divinity, who are hiding the Key of Knowledge and are misleading the Lord's trusting sheep of nominal Christendom?

Impossible to Deceive the Very Elect.
As we have already shown, they cannot keep penned or asleep those who constitute "the very Elect" nor can they keep knowledge from this saintly class. Our Lord, speaking of this time, said that the deceptions would be such that they would deceive, if possible, "the very Elect"; but in their case deception will not be possible, for the True Shepherd Himself will help them. But oh, what weeping of disappointment, what chagrin and gnashing of teeth will come shortly to the false shepherds, to the Key-hiding Doctors of Divinity, when they find that with all their endeavors to bolster up shams and superstitions in which they themselves do not believe, the entire fabric of Churchianity will collapse, as the Scriptures predict?

Is it any wonder that the Master prophesied respecting the unfaithfulness amongst His professed followers at this time, saying, "When the Son of Man cometh, shall He find the Faith upon the earth?"

RAINY ROCK WAS
FAVORITE PLACE
FOR PICNICKERS

After the welcome showers of Sunday afternoon auto parties were numerous, taking advantage of the cool atmosphere to spend several hours in the country. Rainy Rock seemed to be the favored place, and numerous picnickers journeyed to Licking county's beautiful scenic spot. Spring chicken luncheons were enjoyed and in one part of the rocky dell a corn roast was prepared under the wise care of several "well known" young ladies of the city. That it must have been a delectable feast was attested by the fact that after it was over a bushel basket of cobs is reported to have been gathered up where it was held. One of the young ladies with an escort is said to have secured a peck of potatoes for roasting in the near vicinity. How they were secured though is not stated.

has gained ground in this century which looks upon the bearing and rearing of children as something coarse and vulgar and to be avoided, but the advent of Eugenics means much for the motherhood of the race. Happy is the wife who, though weak and ailing, depends upon Lydia E. Pinkham's Vegetable Compound to restore her femininity, to pound to restore her to health, and when headaches and backaches are a thing of the past, brave sons and fair daughters rise up and call her blessed.

GLASS OF SALTS
CLEANS KIDNEYS

If your Back is aching or Bladder bothers, drink lots of water and eat less meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts, take a tablespoonful in a glass of water before breakfast, each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of

FINE SERMONS HEARD SUNDAY AT CHAUTAUQUA

Tonight.
7:45—Concert, the Music Makers.
Tuesday Afternoon.
2:30—"Dead Lions," Dr. Lincoln McConnell.

Tuesday Night.
7:45—Concert, the Maurer Sisters.

(Special to the Advocate.)

Summerland Beach, Aug. 10.—Another one of those Sundays in which the solitude is only broken by soothing religious music and soul-stirring sermons was spent at Summerland Beach Sunday. While a storm seemed imminent throughout the day, and a slight shower in the afternoon threatened to discourage the crowds who flock to the Sunday services, nevertheless the services were well attended, many people coming from far and near to spend the entire day.

The sermon of Daniel Poling, associate president of the United Society of Christian Endeavor, was attended by over 1500 people. Opening his sermon with a description of the ill-fated Scott Antarctic expedition, he backed his remarks upon the forty-first verse of the first chapter of St. John, speaking of the discovery of Jesus Christ as the Great Discoverer. "The world has discovered Jesus Christ as one who discriminates between evil and the evil doer, and sin and the sinner. Every hospital, every reformatory and every charitable institution stands as a monument to Jesus Christ. There are now many of these in heathen countries. An eye for an eye and a tooth for a tooth is still the law where Christ has not been found," was said by the speaker.

The sermon concluded with emphasis on the two propositions, that we must pay the price of our great discovery, and that those who find Christ are responsible for discovering Him to the world that does not know Him.

The assembly chorus which has been rehearsing ever since the opening of the Chautauqua rendered the oratorio, "The Messiah" Sunday afternoon. The chorus which was gathered from those assembled at the Beach was assisted by soloists who were brought from other cities especially for the occasion. Among the soloists were Marion Rose Johnson and Donald Cross, age 12, Miss Helen Gilmore, of Granville, played the accompaniment to the oratorio on the piano. This young lady has a very much musical ability, and so successfully did she play the accompaniment that it won for her much commendation. The chorus was under the direction of Prof. Karl Eschman, dean of the conservatory of music of Denison university. The oratorio compared well with any of the professional numbers on the program during the Chautauqua.

Mr. Poling's sermon in the evening was "The Challenge of the Kingdom to the Youth of the Churches." The speaker spoke in part as follows: "The kingdom of heaven is on earth among men. It is a present tense kingdom. It has to do with men who labor and suffer today and not with the ancient empires that long since have sunken to their graves."

"We are responsible for the kingdom of heaven; we must bring it in. God entrusts us with his message and program. He does not send chariots of fire as in the days long ago—He sends us. And if His message is not taken, if there are waste places in the earth where His name has not been heard and where His kingdom has not come, we are to blame."

Speaking of the liquor traffic he dealt with it as the enemy of the youth, the home and the state. In conclusion the young people were called upon to enlist at once for aggressive work in the interests of state-wide prohibition.

The Music Makers who appear this evening are a male quartet of unsurpassed excellence. This will prove to be one of the best of the numbers of this kind on the program.

Tuesday afternoon, Dr. Lincoln McConnell, one of America's greatest freemason speakers, will lecture on "Dead Lions."

Tuesday evening the musical program by the Maurer Sisters will be one of the most enjoyable features of this year's program.

The ministers' conference which started today and will continue until the close of the Chautauqua Thursday, is being conducted by Mr. Poling, the speaker of Sunday. Each day Mr. Poling speaks for one-half hour and then the meeting is thrown open to discussion.

MONTENEGRO CITY IS BOMBARDED BY AUSTRIAN SHIPS

(Associated Press Telegram)
Bari, Italy, Aug. 10.—After the Austrian cruisers had bombarded Antivari, Montenegro, damaging the wireless station and the electrical works, they directed their fire to the adjacent hills in which many Montenegrins from the town had sought refuge. These refugees returned the fire, whereupon the cruisers redoubled their attack upon the town and its suburbs, destroying many houses. One cruiser then entered the port and resumed the bombardment, destroyed the maritime station and storehouses. The warships then sailed in the direction of Cattaro, Austria.

Halifax, N. S., Aug. 10.—The Russian steamer Dwinsk from Libon, with passengers arrived off the harbor late last night and anchored. The British cable steamer Mackay-Bennett arrived from Queenstown. Neither steamer sighted any German Cruisers. The Mackay-Bennett after learning that war had been declared, extinguished most of her lights and came at full speed for this port.

LOST LEFT FOOT IN ATTEMPTING TO BOARD CAR

Carl Beuler, age 22, fireman at the Ohio Electric power house at Hebron, while attempting to board an Ohio Electric car at Luray Sunday morning, slipped under the car and had his left foot cut off at the ankle. He was taken on board the car and brought to Newark. The auto ambulance of Clunk and Martin met the car at Sixth Street and took the young man to the city hospital where his injuries were attended by Doctors U. K. Essington and G. N. Brown of Hebron. The latter was secured in Hebron and cared for the injured man on the trip down.

Beuler's home is in Neligh, Neb. He came east two months ago and since that time has been residing with his uncle, T. W. Duffield in Luray. Monday the injured man was in good condition and reported as resting well.

OVERHAULING OF ENGINE AT LIGHT PLANT

For First Time in 20 Years, Caused Darkness in Parts of Two Nights.

The engine at the municipal Electric Light plant, has been completely overhauled, for the first time in 20 years service, and the machinery at the plant is now in the best of shape possible, which will mean no more shut downs unless some unforeseen accident happens to cause a break down.

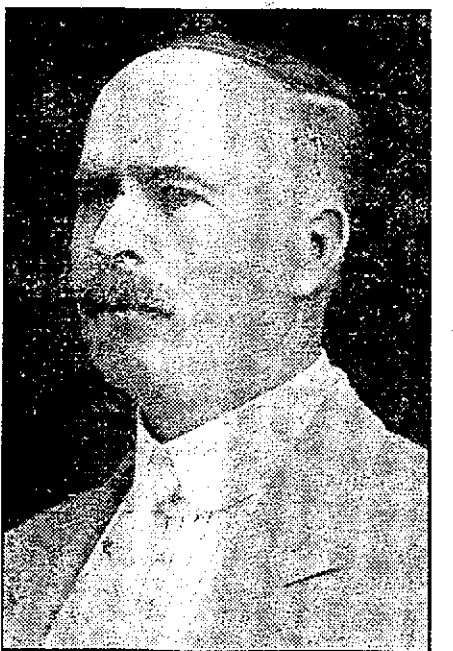

Thursday and Friday nights of last week the lights were not on, because of the fact that the valve action of the engine had to be adjusted. Of course in a plant with only single equipment, this work requires that the plant shut down and there can be no lights.

Newark does exactly the same as other cities during the moonlight nights, "use the moon," and take advantage of this for making any running repairs. Especially is this done every month during full moon at which time the boilers are cleaned, but last week there were parts of two nights when the lights would ordinarily have been burning.

Some repairs are yet to be made to the building at the municipal plant, but this will not interfere with the running of the machinery.

NEW COUNCILMAN FROM FIFTH WARD IS THOS. E. ADAMS

THOMAS E. ADAMS.

For seven years he has been superintendent of the agricultural department at the state fair, and last week received his appointment from A. P. Sandles, to act in the same capacity at this year's fair.

Mr. Adams is also vice-president of the Licking County Agricultural Society, and at the coming county fair will have charge of the exhibit of horses.

He is a Republican in politics.

FOR JUDGE OF THE COURT OF APPEALS

EDWARD KIBLER OF NEWARK

EDWARD KIBLER, Democratic candidate for judge of the court of appeals in this district, was born in Newark, O., Feb. 6, 1859, and has practiced law thirty-two years. He was a graduate of Wooster university in the class of 1880, and studied law with his father, Judge Charles H. Kibler, who practiced law fifty-five years and served a term on the circuit court bench. Mr. Kibler served on the municipal code commission under appointment of Governor Bushnell in 1898-1900; was president of the Ohio State Bar association, and served four years as president of the board of education of Newark. Mr. Kibler has had a ripe experience at the bar, is in the prime of life, energetic, progressive, learned in the law, of the highest character, and has led a clean, useful life. He has six children, one son, Edward Kibler, Jr., being associated with his father in the practice of the law at Newark. Mr. Kibler was the author and procured the passage of the law found in Volume 103, Ohio Laws, page 132 forbidding the reversal of verdicts and judgments for technical errors.

EDWARD KIBLER CANDIDATE FOR CIRCUIT JUDGE

The Licking county bar has unanimously endorsed the candidacy of the Hon. Edward Kibler for judge of the Court of Appeals. Mr. Kibler is the one Licking county candidate for this important office.

Delaware, Knox and Richland counties each have a candidate for the Democratic nomination while Muskingum alone presents a candidate for the Republican nomination. Each of these men will no doubt receive a large complimentary vote in his own county and Licking county should so honor Mr. Kibler.

Mr. Kibler is eminently qualified for the Appellate judgeship. He has been an active lawyer in Newark for thirty-two years. He was one of two members appointed to compile the Ohio Municipal Code and has been highly complimented for his work. He has filled various offices of public trust, and a few years ago was honored by the presidency of the Ohio Bar association. Mr. Kibler would be an ideal jurist, one in whom the people would have faith and confidence. In the prime of life, energetic, progressive, learned in law and literature, a man of a splendid character and strict integ-

city. Licking county is proud of his citizenship and presents him as one of her foremost sons as a candidate for the Appellate court bench. Tomorrow will be primary election day.

ASHBROOK FAIR TO UNION LABOR

The false and malicious statement made in The Coshocton Morning Tribune, of August 6, 1914, headed "Labor is After Ashbrook's Scalp" is refuted by the following telegram from

Arthur Muhleman
President
Coshocton Trades and Labor Council

WESTERN UNION NIGHT LETTER

Rochester, N. Y., Aug. 8-9, 1914. BEN JOHNSON,

North 9th St., Coshocton, O. Labor is not ungrateful to those in public positions that support measures of importance to their interest. Hence, in all fairness to Congressman Ashbrook, his record in Congress toward labor is such that it deserves labor's recognition as being fair.

ARTHUR MUHLEMAN.
